

“Glorious Gardens”

with Lynn and Gerry Lemmo

This slide presentation, filled with eye-popping colors of your favorite garden blossoms, is sure to delight. Along with the many beautiful flowering plants are some of the common northeast wildlife species that also make their way into our gardens.

Help show our appreciation to Moreau Community Center

MCC has allowed us free use of their hall for programs; if you'd like to thank them, you may bring a non-perishable item for their food pantry.

Wednesday
May 28th – 7 PM
